ALL SORTS.

—Jake Klein is back from the Bay.
—John Dennis was on yesterday's train.
—Buy the Tiger Hat and none other. *
—Long Protectors at Thaxter's Drug Store.
—John D. Kersey has returned to the city.
—For cold feet, get a Hot Water Bag at Thaxter's.
—R. S. Rodman is once more on deck at the Postoffice.
—Blumenthal & Cohn are sole agents for the Tiger Hat. *
—Geo. T. Davis is making substantial improvements on his store.
—Kieth Bros. of Chicago manufacture the Tiger Hat. Every hat warranted. *
—Lost—A small gold locket, containing two pictures, supposed to be two short pieces of chain attached. Leave at this office.
—Joe Platt, who is always the first in the field with Spring goods, has laid in another big invoice of just those sorts of goods that everybody wants.

—The APPEAL is renovating its job office and adding a large quantity of new type. A new Gordon press is under way, and the people who cannot get what they want here this Summer, will be hard to please.

—It is a good rule to accept only such medicines as are known to be worthy of confidence. It has been the experience of thousands that Ayer's Cherry Pectoral is the best medicine ever used for throat and lung diseases.

—Everybody needs a Spring medicine. By using Ayer's Sarsaparilla, the blood is thoroughly cleansed and invigorated, the appetite stimulated, and the system prepared to resist the diseases peculiar to the Summer months. Ask for Ayer's Sarsaparilla. Take no other.

An S. F. dispatch says: By order of Judge Hunt of San Francisco, R. H. McDonald, Jr., husband of Clara Belle, will be allowed to visit their child three times a week for one hour each time, with the further privilege of taking the child out for a walk every Saturday. The trial to determine into whose custody the child shall eventually be given is now going on before Judge Hunt.

—Five or six wood-choppers on Bullion Mountain have been arrested by United States Marshall Kelly for alleged violations of the timber laws. They have been cutting wood on public land and selling it for mining and domestic purposes. This is the second time they have been arrested, a Justice of the Peace having discharged them the first time. Several mining companies are indignant at the arrest, as it will probably stop their mills.

—The U. S. District Court was called at 10 A. M. yesterday Judge Sabin presiding. The following named persons brought in from Lander county by U. S. Marshal Kelly, for cutting timber on mineral land were arraigned and given till Friday next to plead. Joaquin Estrada, J. C. Latta, Jesus Maria Encinas, Hilario Meza, Seranfino Ciminio and Rafino Marifo. Messrs. McMillan and J. T. Dennis were appointed by the Court to defend the accused.

THE "STRAIGHT TIP" MAN.

He Comes to Grief in San Francisco.

Some months ago Dan McCarthy, of San Francisco, gave a man a "straight tip" on a horse race, and the latter invested \$337 in the pools. The horse he backed lost, and he sued McCarthy for half the money. The Court, with a degree of hard horse sense unusual at the Bay, gave a verdict for the plaintiff, of the amount asked for. If this kind of law is enforced the "straight tip" man will be less numerous on a race track.

The writer had a "straight tip" experience last Fall. While at Wabaska Fair there was a match between a bay and a sorrel. Ex-Senator Gallagher took the editor of the APPEAL one side and gave him a "straight tip" on the bay. The scribe was about to purchase a pool on the bay, but after listening to Gallagher made up his mind to bet on the sorrel.

For some years he had been the sorry victim of the "straight tip" men, and finally concluded that it might be a wise thing to copper him. He began drawing the line on Gallagher, who knows no more about a horse than a Chinaman. Well, to make a long story short, Gallagher's horse lost.

He got a "straight tip" from the jockey or somebody, and lost \$100. It is good horse sense to bet just the reverse of the way suggested by the "straight tip."

DISTRICT COURT.

The District Court was called yesterday, Judge Rusing presiding. The trial jurors were in Court and excused until to-morrow at 10 o'clock A. M., when they will be empaneled. The following business was transacted and Court adjourned for the day:

State vs. H. T. Hoadly.—Demurrer overruled. Statements of facts filed.

State vs. George Pierce. Indicted for selling ardent spirits to an Indian. Defendant withdrew plea of not guilty and entered plea of guilty. He was ordered to appear for sentence on March 1st.

J. P. Sweeney vs. G. Raffetto, et al.—The demurrers of each of the defendants were overruled, defendants' exceptions noted, and they were allowed twenty days to file answer.

A Loss to Eagle Valley.

Yesterday M. Cohn sold his famous jack, Kentucky Pete, to Mr. Evans, of Reno, for a good round sum. It seems a pity that the ranchers of Eagle Valley did not sufficiently appreciate the value of this animal to retain him in the Valley by giving the owner sufficient patronage to warrant his keeping him there. Mr. Evans, of Washoe Valley, expects to make a large sum of money out of the animal, as his neighborhood is anxious to have him and willing to pay well for the privilege. The value of the mule as a draught animal and roadster is not sufficiently appreciated in Nevada.

The mule is much harder than the horse, sure footed, and can subsist and keep in good condition on much less feed. A mule will keep in good condition where a horse will starve, and despite reports to the contrary the mule is tractable and gentle if treated kindly. As a general purpose animal a team of mules is better for any ordinary use than a pair of horses of even heavier weight.

A Domino Party.

A domino party is something that gives everybody a chance to be sociable. Sometimes a bashful man who is a little backward about hugging a woman in an open ball room can sail right in when there is a domino party and be real fresh and sociable, and no row kicked up.

If a lady should object to too much familiarity he has only to say that he thought from the voice it was his maiden aunt, or his sister and everything is forgiven. If a married man cuts up too lively with a great woman he can swear by the great horn spoon that he supposed all the while that it was his wife trying to play a joke on him. Everything goes at a domino party until midnight, when everybody un-masks and no questions asked. The Ladies' Relief Corps give a domino party tomorrow evening at the Armory, and the way the tickets are going indicates that the place will be jammed. It is for a good cause, and every body so realizes.

WILD HORSES OF NEVADA.

A News Item Which Will Astonish Our Stockmen.

The New York Sun of a recent date published the following: "Nevada horse-raisers and ranchers on the Poudre and White Pine ranges are complaining of the wild horses of that region. In the Shell-back mountains are bands of from 150 to 200 of these horses, each under the leadership of powerful stallions, and they make regular raids on the ranches and run off the horses of the ranchmen."

A horse once gone is gone for ever, the Nevada men say for the wild horses are very cunning and wary, and will not let a man get within rifle shot of them. The nuisance became so great that last Spring fifteen experienced horsemen and hunters started out with the object of killing off as many of the "boss stallions" as possible. In ten days' hunt they managed to kill just one horse. The wild horses of Nevada average about 800 pounds weight, and when caught are about the most ugly beast alive. But if they can be subdued and broken, they make the most serviceable and hardy horses imaginable."

A WONDERFUL FIND.

Fragment of a Gigantic Human Skeleton.

One of the Rayeraft brothers brought down yesterday from Genoa the upper portion of a leg bone, which must have originally belonged to a man at least twenty-five feet high. The bone, where it joined the knee cap, was eight inches across. Dr. Lee pronounced it a portion of a human skeleton, and said it was at least five times the ordinary size. The fragment, which was not half a leg bone, weighed over 20 pounds. It was found in Pine Grove, and men propose this Summer to prospect for the balance of the remains. The bone can now be seen in the museum of the State Capital.

Prospect Wells.

In speaking of the prospecting going on north of the city by means of an artesian well boring machine the Gazette says:

Boring for ledges from the surface has never been adopted by miners in this State, though underground the diamond drill has been known to tell what was in the ground long before the pick discovered it. If the diamond drill could do such good work underground there would seem to be no reason why it would not be made to work as effectually from the surface. Hawkins and McLoughlin, with a simple well boring apparatus, have proven that ledges can be tapped at the depth of several hundred feet, and enough of the ore brought to the surface to get an assay from. Such being the case, it is fair to presume that more of that style of prospecting for gold and for silver will be done hereafter; and as it is very much cheaper than sinking shafts it commends itself to the prospector and miner with limited capital.

We believe the new method of prospecting for ore will in time revolutionize the whole system of prospecting for ledges and it commends itself to the miner by reason of its cheapness and rapidity. A prospect hole cased with iron tubing can be sunk several hundred feet deep at less than one-fifth the cost of a timbered shaft, and in less than one third the time.

A Newsboy's Struggle for Damages.

PHILADELPHIA, Feb. 29.—The newsboy, Charles Urban, has had a hard struggle to secure payment of damages from a Philadelphia Traction Company. One leg was cut off by a cable car. He first secured a verdict of \$18,000. This was reduced to \$12,000 by the Common Pleas Court, and the last amount was swept away by an order for a new trial. The boy has become a vagrant during the proceedings.

Theater Burned.

NEW YORK, Feb. 28.—The Union Square Theater, with all its contents, was destroyed by fire this afternoon. The Morton House, was badly damaged, and the Star Theater was in great danger for sometime. The damage will amount to a little less than a third of a million dollars. A number of firemen were caught by the falling timbers, but it is thought none fatally injured.
